# Executive Summary: Stay Pro

stay **N** sleep

## Rewards

### Purpose & Objective

- Strengthen brand loyalty & increase repeat engagement
- Create a unified company initiative that enhances the brand experience

### Program Overview

- Points based program with bespoke/tailored benefits based on spend
- Benefits designed to motivate ongoing customer interaction
- Targeted to small business owners who can utilize benefits for further savings
- Rewards include discounts and personalized offers

### What this means for our teams

- A new tool to deepen customer relationships
- Clear opportunities to deliver differentiated service

### Benefits to Stay N Sleep

- Higher retention and stronger purchase patterns
- Competitive advantage through a more engaging customer experience
- Reduction in customer acquisition costs

### Implementation & Timeline

- Phase 1: Initial design of program with architectural solution
- Phase 2: Vendor contract finalization, dashboard & notification development and soft launch
- Phase 3: Full launch
- Phase 4: Survey and impact review

# Who We Serve

## Alice Brooks

Community-Centered, Ambitious, Budget-Conscious, Creative

### ABOUT

Alice owns a neighborhood coffee shop and a small-batch roasting business. She travels regularly to source beans, attend coffee expos, collaborate with local vendors, and host pop-up coffee tastings in new cities.

Because her business blends retail, hospitality, and community building, she often needs flexible spaces where she can **stay**, **work**, and **host small gatherings** — all in one booking.

Traditional hotels and meeting spaces feel stiff, overpriced, and not aligned with her brand vibe. Stay N' Sleep gives her warm, functional spaces she can customize for tastings, small workshops, or mini team sessions.

***“I need spaces where I can brew, connect, and rest — all in one place, without juggling multiple bookings or breaking the budget.”***

### DEMOGRAPHIC DATA

**Age:** 34

**Work:** Coffee Shop Owner + Roaster

**Civil Status:** Married

**Location:** Portland, WA

**Character:** Creator & Community Builder

### FAVORITE BRANDS

Blue Bottle, Fellow, Square, Shopify,

### GOALS

- Find flexible accommodations for business travel and hosting tastings/workshops
- Keep expenses predictable and within budget
- Earn rewards that support her small business (groceries, ride credits, event supplies)
- Build deeper relationships with suppliers and local communities

### PAIN POINTS

- Hotels lack functional areas for tastings or meetings
- Renting event spaces is expensive and inconvenient
- Hard to find stays that align with her creative, community-driven brand
- Loyalty programs rarely offer practical, business-friendly rewards

### NEEDS

- Multi-purpose spaces with open layout, good lighting, and kitchen access
- Fast and easy booking
- Rewards relevant to running a small business
- Transparent pricing with no surprises

### PREFERRED CHANNELS

- Referral/Word of Mouth 50%
- Email/App Notifications 30%
- Social Media/Professional Networks 10%
- Targeted Partnerships 10%

## Emma

Efficient, Time-Conscious, Organized, Detail-Oriented

### ABOUT

Alice is a corporate professional who travels frequently for work, especially during Q3 and Q4 when business events peak. Her trips often include client meetings, networking, and team gatherings. She looks for **flexible, reliable accommodations** that support her professional needs and personal comfort. Alice values **efficiency, convenience, time-saving solutions, and work-friendly amenities** while on trip.

*“Success is the best revenge.”*

### DEMOGRAPHIC DATA

**Age:** 35

**Work:** Marketing Manager

**Civil Status:** Married

**Location:** Chicago, IL

**Character:** Go-Getter

### FAVORITE BRANDS

Starbucks  
Sephora

### GOALS

- Book reliable, work-friendly stays quickly.
- Reduce hassle during busy travel periods.
- Stay productive while on the road.
- Engage with loyalty perks that **save time**.

### NEEDS

- Fast and predictable booking, check-in, and check-out.
- Workspace-friendly accommodations (desk, Wi-Fi, quiet rooms).
- Automated rewards or easy redemption.
- Smart, personalized recommendations for perks or packages

### PAIN POINTS

- **Fewer amenities than hotels** – Limited services like room service, gyms, or concierge.
- **Transportation challenges** – Need easy access to airports, meetings, and local venues.
- Inconsistent accommodation quality or workspace setup.
- **Local area risks** – Unfamiliar neighborhoods may feel less safe or reliable.
- Loyalty programs that are complicated or time-consuming.

### PREFERRED CHANNELS

- **Email / Push Notifications: 30%**
- **Corporate Partnerships / Travel Admin: 50%**
- **Social Sharing / Referrals: 20%**

## Ethan Miller

Spontaneous, Social, Experience-Seeker, Relaxed

### ABOUT

Ethan is a leisure traveler who enjoys exploring new cities, local culture, and unique experiences. He takes trips mostly for vacations, weekends, and seasonal holidays. He looks for **comfortable, convenient, and Instagram-worthy accommodations** that offer easy access to attractions, restaurants, and social activities.

***“I travel to make memories and discover new places — I want my stay to feel effortless and inspiring.”***

### DEMOGRAPHIC DATA

**Age:** 30

**Work:** Marketing Specialist

**Civil Status:** Single

**Location:** Los Angeles, CA

**Character:** Explorer & Social Connector

### FAVORITE BRANDS

Airbnb, REI, Starbucks, Uber, TripAdvisor

### GOALS

- Discover unique stays and local experiences.
- Relax and disconnect from work while traveling.
- Access easy booking and seamless travel arrangements.
- Share memorable experiences on social media

### NEEDS

- Comfortable, safe, and aesthetically pleasing accommodations.
- Easy-to-use booking system and flexible cancellation policies.
- Suggestions for local activities, dining, and attractions.
- Rewards and perks that enhance leisure experiences (free experiences, discounts, upgrades).

### PAIN POINTS

- Standard hotels feel generic and impersonal.
- Finding reliable local recommendations is time-consuming.
- Loyalty programs often reward spending, not experiences.
- Planning trips with friends or family can be complicated

### PREFERRED CHANNELS

- **Social Media / Instagram: 50%**
- **Email / App Notifications: 30%**
- **Referral / Word of Mouth: 20%**

# Hypothesis & Validation

## Hypotheses for Core Persona : Small Business Owner Traveler

We believe that small business owners who travel for work have a need for loyalty rewards that support their business-related activities—such as ride credits, groceries, event supplies, or hosting small gatherings—because their trips often combine staying, working, and community engagement.

We can address this by creating a rewards program that generates points from user activity and allows travelers to redeem those points for practical, business-friendly perks that match their needs.

We will know this is true when we see increased repeat bookings, higher platform engagement, and consistent redemption of rewards.

We believe this because market research shows that small business owners value loyalty programs offering *practical, flexible rewards* rather than generic discounts; competitive programs lack business-oriented perks; and behavioral data indicates that these users frequently book multi-purpose stays, making them highly responsive to incentives that save

## Validation process for Core Hypothesis

### Early User Research (Qualitative)

- **Interviews / Surveys:** Ask target users (small business owners, frequent travelers) about their interest in rewards for bookings and referrals.
- **Feedback on Rewards(Focus groups):** Present potential perks (ride credits, groceries, event supplies) and see which are most appealing.
- **Market research** data shows that acquiring new customers costs five times more than retaining existing ones. Moreover, existing customers are 50% more likely to try new products and experiences and spend 31% more than new customers. Based on this evidence, we see value in a loyalty program designed to encourage repeat visits and increased engagement with Stay-N-Sleep.

# Implementation Approach

### Loyalty Program – MVP Summary

#### Objective:

Deliver a lightweight rewards experience that drives repeat stays and validates user interest before scaling

### MVP Features

- **Points Earn & Redeem-** Earn from stays + referrals; redeem for travel, grocery, restaurants, supplies and experiences.
- **Rewards Dashboard-** Points balance, source breakdown, YTD chart, and quick “Redeem” entry point.
- **Redemption Experience-** Recommendations, categories (Travel, Grocery, Restaurants, Experiences), and basic redemption history.
- **Homepage Rewards Overview-** Tier + points available, quick access to Rewards and Special Offers.
- **Notifications** Post-stay “points earned,” reward confirmation, and points expiry reminders
- **Referral Program-** Share link → earn points when referral completes a booking.
- **Support Experience-** Live Help tile with access to chat/FAQ

## Loyalty Program

### Out of MVP Features

- **Tiered loyalty levels:** Higher rewards as users progress.
- **Personalized suggestions:** Rewards matched to user needs.
- **Vendor marketplace:** Access to partner services and supplies.
- **Event add-ons:** Redeem points for business events.
- **QR code redemption:** Instant, easy reward use.
- **Priority support:** Fast, dedicated assistance.

# Use Cases

## Use Case 1: Learning About Rewards & Referring a Friend

**Title:** Discover Rewards & Refer a Friend

**Persona:** Alice Brooks — Small Business Owner & Traveler

**Story:**

Alice gets an email about the new rewards program. She opens the app, learns how points work for bookings and referrals, and checks perks like ride credits, groceries, and event supplies. She shares her referral link with a colleague, who completes a booking. Alice gets a notification that her points are credited.

**Outcome / Value:**

- Alice understands the program quickly
- Referral drives new user acquisition
- Higher engagement and repeat bookings

**Acceptance Criteria:**

- Clear rewards info
- Unique, trackable referral link
- Accurate point crediting
- Timely notification

## Use Case 2: Redeeming Points via Dashboard & Vendor Partnerships

**Title:** Check Dashboard & Redeem Rewards

**Persona:** Alice Brooks

**Story:**

Alice opens the Stay-N-Sleep Rewards Dashboard while planning a business workshop. She checks her points balance and redeems ride credits, grocery credits, and event supplies. Her selections are confirmed instantly, simplifying her planning and saving costs.

**Outcome / Value:**

- Alice receives practical, business-relevant rewards
- Rewards reduce hassle and improve travel experience
- Reinforces loyalty to Stay-N-Sleep

**Acceptance Criteria:**

- Dashboard clearly shows points balance
- Redemption options align with user needs
- Points deducted accurately
- Notifications confirm reward use

## Use Case 3: Earned Rewards Notification After Stay

**Title:** Receive Notification of Earned Rewards

**Persona:** Alice Brooks

**Story:**

After a business stay, Alice receives a notification showing points earned and suggested rewards. She logs in, checks her balance, and plans which perks to use next.

**Outcome / Value:**

- Alice feels recognized and rewarded
- Encourages repeat bookings
- Smooth link between stay and rewards usage

**Acceptance Criteria:**

- Notification sent promptly
- Points and rewards accurate
- Dashboard updated immediately

# Success Metrics

## Success Metrics

### 1. Engagement Metrics

- **Program Enrollment Rate:** 50% Enrollment of rewards by active users before Q2
- **Active Loyalty Users:** 65% of enrolled users who earn or redeem points within a 3-month period.
- **Referral Shares:** 15% of loyalty members who successfully refer at least one new user.

### 2. Redemption Metrics

- **Redemption Rate:** 50% of earned points that members actually redeem for rewards
- **Popular Rewards:** Most frequently redeemed rewards (ride credits, groceries, event supplies).

### 3. Acquisition Metrics

- **Referral Conversion Rate:** 15% of loyalty members who successfully refer at least one new user.
- **New Users via Referral:** 10% increase to number of new users acquired through the program.

### 4. Business Impact Metrics

- **Repeat Booking Rate:** % of loyalty members making multiple bookings.  
**Average Booking Value (ABV):** Compare ABV for loyalty members vs non-members.
- **Customer Satisfaction / NPS:** Post-redemption feedback or survey.

### 5. Operational Metrics

- **Points Accuracy:** % of points credited correctly after bookings or referrals.
- **Notification Timeliness:** % of notifications sent successfully after points earned/redeemed.
